

LONG-TERM LEASING OF VEHICLES

1 THE BASICS OF LONG-TERM LEASING

A STRAIGHTFORWARD OPERATION

Long-Term Leasing is a comprehensive service that consists of leasing a vehicle for a set duration and mileage, and which includes services designed to simplify the day-to-day management of the vehicle.

It involves:

- > A customer (the lessee) who freely selects the vehicle of their choosing and determines their preferred leasing term and mileage. During the leasing term set out in the contract, the lessee pays a monthly leasing fee that includes high value-added services: assistance, maintenance, insurance, tires, fuel, and more. The leasing fee may be revised during the term of the contract according to the vehicle's actual mileage. At the end of the leasing contract, the customer returns the vehicle to the lessor.
- > **A lessor** who takes care of purchasing the vehicle and places it at the disposal of the customer according to the terms of the leasing contract, in return for a monthly leasing fee.

A FLEXIBLE AND ADJUSTABLE SOLUTION

- > **Choice of vehicle:** make, model, passenger or commercial vehicle, etc.
- > **Leasing term** between **12 and 60 months**
- > **Annual mileage** up to 160,000 km (99,420 miles) for a gasoline model, 180,000 km (111,847 miles) for a diesel, and 80,000 km (49,710 miles) for an electric vehicle
- > Option of making a **higher first leasing fee payment**, up to 15% of the discounted net price of the vehicle, in order to reduce the cost of the subsequent leasing fees

A SOLUTION THAT CAN BE ADAPTED TO DIFFERENT NEEDS

Long-term vehicle leasing is a **solution designed for all those involved in the social economy: guardianship associations, mutual societies, training centers, trade guilds, chambers of commerce, retirement homes, vocational rehabilitation centers, sheltered workshops, home hospitalization.**

It enables them to finance **new vehicles on a professional basis:**

- > **Private vehicles** or passenger vehicles, i.e. a passenger transport vehicle, which can be used for professional or private purposes.
- > **Company cars, without authorization for personal use.** These are provided to an employee by their employer for exclusively professional use. Typically, this type of vehicle has no passenger seats in the rear.
- > **Commercial vehicles:** these are intended for commercial or industrial use. The rear of the vehicle is designed to be loaded with goods and usually has a large storage capacity. This category of vehicle includes vans, pickups, small trucks, etc. with a total permissible laden weight less than 3.5 metric tons.

Some vehicles or professions corresponding to specific uses are excluded from the offer: driving schools, equipped ambulances (except light medical vehicles), movers, taxis, funeral homes, short-term rental companies.

2 A FINANCING SOLUTION SPECIALLY CUSTOMIZED FOR YOU IF YOU WISH:

- > Benefit from a **turnkey service and outsourced management** from the moment you order the vehicle(s)
- > **Spread your car expenses** over the year and know your budget in advance
- > **Convey a positive image** of your organization through modern and greener vehicles

3 THE ADVANTAGES

/// OF MANAGED COSTS

- > Optimized leasing fees thanks to discounts negotiated with manufacturers
- > You pay a fixed monthly leasing fee, known in advance, which also covers your subscribed services (maintenance, assistance, etc.)
- > The end of your contract is scheduled in advance. You avoid the financial risks associated with resale

/// FULL FINANCING

- > You protect your borrowing capacity to grow your business
- > No advance VAT on the total purchase price of the vehicle. VAT is only applied to the amount of the monthly leasing fee for the vehicle.

/// A STRAIGHTFORWARD OPERATION

- > You benefit from a single point of contact for the management of all the vehicles
- > Your accounting is simplified with a single monthly invoice for all your vehicles

4 HOW IT WORKS

1. **You are free to choose your vehicle:** make, model, and options, the duration of your lease (adjustable if necessary throughout the contract) and your total mileage
2. **You add the services** you wish to benefit from. Maintenance, 24/7 roadside assistance, and the financial loss option are already included in your contract.
3. **BPCE Car Lease takes care of ordering the vehicle** and any administrative formalities. You pay an overall leasing fee that covers all your vehicle costs. So, you stay in control of your spending.
4. At any time, the BPCE Car Lease teams are on hand to answer any questions you may have about your contract: accident claims, endorsements, optional services, and so on.
5. **At the end of the contract, you return your vehicle: a specialist helps you prepare for the return and the renewal of your contract**

5 ADDITIONAL SERVICES OFFERED

ASSISTANCE

24/7 coverage in the event of total immobilization of the vehicle (replacement vehicle, accommodation costs, continuation of the trip)⁽¹⁾

MAINTENANCE

Covers the mechanical, electronic and hydraulic repairs needed for the vehicle's proper functioning, and everyday maintenance operations recommended by manufacturers
